Contents

Welcome to the world of BOOKMAN®! With this compilation of great documents, you can read over 60 of the most important documents and speeches to have shaped America. In addition, most have background information on topics such as the causes, provisions, results, dates, and people related to the documents. You can locate a document from the list or cus-

tomize your searches to find documents by subject, people, year, or the type of document. You can also find facts about U.S. presidents at the touch of a key. There are also two quiz games that test your knowledge of America's history.

Use your BOOKMAN to read this book card. See "Installing Book Cards" to learn how.

A Note From the Editors

The editors at Franklin Electronic Publishers wish to note that the documents in this book were taken word for word from copies of original documents wherever possible.

Archaic spellings and use of uppercase were corrected to their modern versions (for example: "... for all manner of Mynes of Gold, Sylver, and Copper..." was corrected to "...for all mines of gold, silver, and copper..."). However, obsolete words were not changed (for example: "hath" remained as is, and was not changed to "has"). The older documents in particular contain words that are now considered obsolete.

Likewise, many of the older documents have no headings, sections, or paragraphs. In order to make them easier to read, we added sections where appropriate for those documents.

Brackets were used to show where any word or section heading was added, or any word was edited (except for spelling and case).

Viewing a Demonstration

Before you start using your new BOOKMAN, you may want to see a brief demonstration of what it can do. When a book card is installed in your BOOKMAN, simply select *View Demo* from the Setup menu to view the demo. When a book card is not installed in your BOOKMAN, the demonstration will automatically appear after you turn the unit on. To stop the demonstration, press **CLEAR**. To disable it, press **MENU** and then select *Disable Demo* from the Setup menu. To re-enable it, select *Enable*

► Help is Always at Hand

You can view a help message at virtually any screen by pressing **HELP**. Press the direction keys to read it. To exit help, press **BACK**.

If you want to read a tutorial, select *Tutorial* from the Setup menu.

► Follow the Arrows

The flashing arrows on the right of the screen show which arrow keys you can press to move around menus or to view more text.

Finding a Document

There are two ways to find a document from the Documents list. You can scroll to the document, or you can type the name at the Documents list. Documents are listed by date from oldest to newest. Some documents have background information while others have only the document's text.

1. Press **ENTER** to go to its submenu.

To bypass the submenu and go directly to the *Mayflower Compact*'s text, press **TEXT** instead.

► Clearing All Filters

If you want to clear the filters you've chosen and don't want to go back and deselect each one, select *Clear all filters* from the Locate menu.

Using the Search Screen

Another way to search for names or specific words is by using the word search screen. You can type any word you think is relevant to the document you seek and go to every document in this book that has the matching word you entered. Try this example.

1. Select **Go to Word Search** from the **Locate** menu.

2. Type one or more search words (e.g., *kennedy*).

To erase a letter, press **BACK**. You do not have to type capital letters.

3. Press **ENTER** to search.

In this example there are 38 matches for the word *kennedy* in 7 documents.

4. Press **TEXT** to go directly to the text.

5. Hold **☆** and press **→** to see the next match.

Using the Search Screen

To see a full line, press **Q→** again.

7. Press **BACK** to go back to the match.

► Searching for Numbers

You can also search for a specific year or number in the documents. For example, there are 6 matches for 1492. To type a number, hold **☆** and press a numbered key (Q-P).

Using the Search Screen

► Filter Relationships

When you search for a document using the filters, here is how they are found:

If two items are selected from two different filters, such as one from *People* and one from *Subject...* **then** the list of matches includes the documents related to *both* the person and the subject.

If two items are selected from the same filter, such as two from *People...* **then** the list of matches includes the documents related to *either* of the people. Therefore, each additional item selected within the filter could make the document list larger.

If you want a combination of these two searches, such as two *People* and one *Subject...* **then** the list of matches includes the documents that are related to the subject and either of the people.

Finding Parts of Words

If you want to find the different forms of a word and where they are in this book, type a word with an asterisk at the word search screen. You can place the asterisk anywhere in the word.

1. Go to the word search screen under the **Locate** menu.
2. Type a word with an *****.

To type an *****, hold **(CAP)** and press **(?*)**.

3. Press **(ENTER)** to search.

4. Highlight the word you want.
5. Press **(ENTER)**.
6. Highlight a document.
7. Press **(TEXT)** to go directly to the text.
8. Hold **(☆)** and press **(ENTER)** to go to the first match.

The search word is boxed.

9. **Continue pressing**  **plus to see the other matches.**

► Highlighting Words to Search

If you see a word in the text of a document that you want to look up, press  to start the highlight and then use the arrow keys to highlight the word. Next, press  to search for it.

Follow steps 6-9 above to go to the matches.

► Locating vs. Searching

Use the search screen instead of the filters when you want a more thorough search. If you want to find a specific year, for example, enter it at the search screen instead of selecting a year range from the Locate menu.

Reading About Presidents

You can view facts about every U.S. president from George Washington to Bill Clinton. Learn their dates of birth and death, political party, vice-president, order of presidency and more.

To find instances of a president's name in the documents, enter his name at the search screen.

1. **Press** .

Playing the Games

Guess That Document and *Guess That President* are quiz games that challenge you to guess a mystery document or president using as few hints as possible. The number of hints given varies in each round.

Your score is set by the number of hints you receive, not the number of hints left. If you used only the first hint, you get 10 points, then 8, 5, 3, 2, and 1 for each subsequent hint received. Your score remains tallied until you exit the game.

1. Press **CLEAR**.
2. Press **GAMES**.
3. Select **Guess That Document** or **Guess That President**.

This is a sample screen for *Guess That President*.

4. To see another hint, press **↓**.

You go to the list of documents or presidents. NOTE: Once you exit the game, you cannot return to the hint screen; you must make a guess.
